---

Thanks Bruce, and thank you for all the time and energy you have put into this effort. I feel our meeting on Tuesday was very productive, and it looks like we have a path forward for the modeling technical subgroup. I am hopeful that this group will make the necessary progress to keep on track with the schedule that was discussed Tuesday (I.e., a combined model approach that is up and running by March 2007).

Again thanks, Jim.

Subject: RE: Revised Modeling Objectives Matrix

My comment on this matrix is that if the EPA T&F model (+ the jointly developed FW model) is successfully integrated with the hydrodynamic/sed models then we could anticipate an "x" in column "E".

Subject: Revised Modeling Objectives Matrix

Valerie –

Attached is the revised matrix requested by EPA at yesterday's meeting. Please forward to EPA/LWG modeling folks for review. Please indicate that this should be reviewed in preparation for final agreement at Monday's meeting. Thanks.

Carl
